

The Performer, is Oceaneering's 315 ft multi-service DP-2 ROV support vessel constructed by Nylands Verkstad, Oslo in 1978 and upgraded in 2006. *The Performer* is well suited to a variety of subsea tasks:

- Subsea Construction Support
- Acoustic Survey Services
- Touchdown Monitoring
- Deepwater Drilling Support
- Pipeline Inspections
- Subsea Maintenance

ROV Services

The Performer is an extremely stable and spacious work platform that can be adapted to support a range of underwater operations. A Hydra® Millennium Plus 330 hp ROV System and a complete ROV Tooling Suite reside on the DP-2 vessel.

Multi-Service

The Performer features 6,781 ft² of work-deck area and is especially suitable for subsea construction and repair operations such as changing subsea control pods or chokes, testing and installing steel flying leads or valve operations and subsea completions.

Accommodations

The Performer accommodates 75 persons.

Dimensions

Length	315 ft
Beam	59 ft
Molded Depth	20 ft
Draft	18 ft

Weights

Cargo Deck Load Capacity	1,200 LT
Main Deck, Load Strength	1,500 lbs / ft ²

Horsepower

Total Available	6,000 hp
Bow Tunnel Thrusters	2 x 1,000 hp
Stern Tunnel Thrusters	2 x 1,000 hp

Capacities

Fuel oil bunkers	240,000 gal
Fresh water	148,000 gal
Lube oil	11,900 gal

Accommodations

Persons	75
Fully air-conditioned	

Lifting Capacity

Crane (EBI C100-80)	50 ton man-rated crane
Stern A Frame	52 ton
Bow Crane	5 ton Hydra Lift

Performance

Speed, Maximum	12 knots
Speed, Cruising	10 knots

Classification

DNV 1A1 ICE-C Supply Vessel
SF HELDK EO DYNPOS AUTR

Dynamic Positioning

Simrad SDP21	DP-2
Split Rudder System	

ROV

Hydra® Millennium Plus	330 hp System
Launch & Recovery	16 ft x 30 ft Moonpool
Complete ROV Tooling Suite	

Built-in Survey System

- Fugro Chance

Call Sign

- C6CX5

Communications System

- CapRock KU Band

Fast Rescue Craft

- MOB 4.5 SOLAS Rescue Boat
