

# HYDRAULIC ROV CHOPSAW

---

## Technical Data / Specifications

### *Dimensions*

Weight in Air	23 lbs
Height	19.5 in
Width	11 in
Blade	10 in blade

### *Performance Data*

Input Pressure	1,500 - 2,000 psi (from ROV)
Input Flow	6 -15gpm (from ROV)
Hydraulic Supply	# 6 SAE Ports

## Overview

This tool is used for a variety of subsea jobs that require the cutting of metal components. Most type of 10 in blade can be fitted to the tool to allow it to cut a wide range of metals. The tool can either be held by the manipulator or hard mounted to the front of the ROV.
